when the first shot must count”*

SSA[®]

SILVER STATE ARMORY

Ammunition that's **ON TARGET**

At Silver State Armory, we don't just load ammunition, *we manufacture the brass cases too*. Each cartridge of Silver State ammunition begins with our precision-made non-corrosive brass case. We use military-grade primers, high performance propellants, and bullets from trusted names like Sierra, Barnes, and Nosler. And each cartridge we make is hand inspected to ensure quality and to deliver superior performance, again and again. Whether for sport, personal protection or in the line of duty, serious shooters rely on Silver State Armory ammunition to *make the first shot count!*

What are the benefits of working with Silver State Armory?

- ★ Sole Source Manufacturer - we manufacture our own brass cases and some of our own bullets.
- ★ Performance - proven quality, accuracy, reliability and consistency. Plus, the industry leader in 6.8SPC.
- ★ Value - superior performance at a fair price.
- ★ Experience - we've manufactured ammunition for foreign, domestic, military and LE customers.
- ★ Manufacturer to Dealer Direct - we sell direct from the factory to the Gun Store owner and LE department, and that means better service and a better value.

"As a Defender, I need ammunition that's reliable and consistent; ammunition that fires the first time and every time. That's why I trust Silver State Armory."

"As a Hunter, I have to drop my game in the first shot. SSA ammunition delivers superior terminal performance when the first shot is my only shot."

Bullet	Hunt	LE	Mil	BC	Muzzle Velocity	Muzzle Energy	Features	
5.56mm 45gr Barnes TSX	X	X	X	.188	3164	1000	Lead-free, all copper. Open-tip barrier blind, excellent LE round against glass, car doors. Great for small game. Great for indoor ranges and CA compliant.	
5.56mm 55gr Barnes TAC RRLP				.225	2975	1081	Lead-free frangible. Excellent LE round on soft targets. Entry round, shoot houses, indoor ranges. R=reduce R=ricochet L=limited P=penetration, CA compliant.	
5.56mm 63gr Sierra Soft Point	X	X	X	.240	2950	1216	Excellent against glass & car door penetration, little deflection. Excellent hunting round, expands on soft target.	
5.56mm 70gr SSA AP		X	X	.305	2850	1230	Jacketed tungsten core, meets or exceeds M995 performance. Defeats 12mm armor plate of 300HB at 100 m. Use against Lt Armor Veh. & Level 4 Body Armor.	
5.56mm 70gr Barnes TSX BT	X	X	X	.314	2750	1176	Lead-free, all copper. Excellent against glass & car door penetration. Excellent hunting round for small to medium-sized game. CA Compliant.	
5.56mm 77gr Sierra OTM		X	X	.372	2750	1293	Military's premiere round for 5.56mm. Cannelure projectile. Similar to M262 Mod 1, good on soft targets.	
6.8 SPC 85gr Barnes TSX	X	X	X	.246	3000 2920	1708 1614	Lead-free, all copper. Superior terminal performance, exclusive to SSA. Fastest 6.8 round available, 50% higher Energy than best 5.56 round. CA compliant.	
6.8 SPC 85gr Barnes TAC RRLP		X	X	.219	2828	1509	Lead-free frangible. Excellent LE round on soft targets. Entry round, shoot houses, indoor ranges. R=reduce R=ricochet L=limited P=penetration, CA compliant.	
6.8 SPC 90gr Speer TNT	X			.203	2900	1682	Affordable, practice round, also excellent for small game. Explosive terminal performance, high velocity and highly accurate.	
6.8 SPC 97gr SSA AP		X	X	.285	2860	1770	Exceeds the armor piercing performance of the 5.56mm M995. Defeats 12mm armor plate of 500HB at 100 meters. Lt Armor Vehicles & Level 4 body armor.	
6.8 SPC 100gr SSA Plinking	X			TBD	TBD	TBD	FMJ lead core projectile, low cost target practice round. Coming Spring 2010	
6.8 SPC 100gr Nosler Accubond	X	X		.323	2700 2620	1616 1495	Ballistic-tipped bonded projectile increases BC. Excellent penetration, large wound cavity and also good against glass and car door.	
6.8 SPC 110gr Nosler Accubond	X	X		.370	2630 2550	1692 1594	Ballistic-tipped bonded projectile increases BC. Excellent penetration, large wound cavity. Deeper penetration than 100gr for larger game.	
6.8 SPC 110gr Barnes TSX	X	X	X	.323	2650 2550	1717 1592	Lead-free, all copper. Deep penetration, excellent expansion, large wound cavity in large game. Excellent against glass and car door, hard targets. CA compliant.	
6.8 SPC 110gr Sierra Pro Hunter	X	X		.314	2600 2500	1655 1525	Excellent hunting round, soft point expands on soft target. Also excellent against glass & car doors, little deflection. Very popular round.	
6.8 SPC 115gr SSA OTM		X	X	.317	2575 2500	1694 1590	Military round, enhanced fragmentation on soft targets with the accuracy of an Open Tip Match.	
.308/762 123gr SSA AP		X	X	.412	2900	2350	Jacketed tungsten core, meets or exceeds M995 performance. Defeats 15mm armor plate of 300HB at 300m. Use against Lt Armor Veh. & Level 4 Body Armor.	
.308/762 150gr Nosler Accubond	X	X		.435	2720	2464	Ballistic-tipped bonded projectile increases BC. Excellent penetration, large wound cavity and also good against glass and car door.	
.308/762 165gr Nosler Accubond	X	X		.475	2675	2612	Ballistic-tipped bonded projectile increases BC. Excellent penetration, large wound cavity. Deeper penetration than 150gr for larger game.	
.308/762 168gr Sierra OTM	X	X	X	.462	2600	2600	Match Grade – Excellent sniper round. Open Tip Match is designed for accuracy and excellent terminal performance.	
.308/762 168gr Barnes TTSX BT	X	X		.470	2680	2613	Lead-free, all copper. Ballistic-tipped bonded projectile increases BC and projectile's expansion at lower velocities. CA compliant.	
.308/762 175gr Sierra OTM	X	X	X	.505	2620	2630	Match Grade – excellent sniper round, similar to M118LR. Civilian version of the military's long-range round, excellent accuracy over 1000 yards.	

Ballistic Coefficient (BC), Muzzle Velocity in feet/sec (FPS), Muzzle Energy in foot-pounds (FT-LB). Bullets fired from rifle with 16" barrel. All figures for Muzzle Velocity and Muzzle Energy are for Tactical Loads. 2nd set of figures (where applicable) are for Commercial Loads.

LAW ENFORCEMENT

Silver State Armory offers a complete line of high-performance Tactical-Load ammunition to meet the increasing demands of today's Law Enforcement and Tactical Officers. Find out why hundreds of Law Enforcement, Defense and Security agencies are turning to Silver State Armory for their ammunition needs.

*"When lives are on the line, the "first shot must count". As a **Tactical Officer**, I need ammunition that is accurate at that critical moment. Mission accomplished. That's why I use Silver State Armory ammunition."*

"We conducted tests with five loads from three manufacturers and found the Silver State loads were head and shoulders above the rest. Accuracy was within .78 MOA with the 6.8SPC 110 grain Soft point and .89 MOA with the Tactical load. Silver State ammo has exceeded all our expectations."

*Sgt. Don Mather, SRT Marksman
Georgetown Police Dept.*

What makes the 6.8mm a superior round? Let's compare:

Projectile	Description	Weight	Muzzle Velocity	Muzzle Energy	Barrier Blind
5.56 Sierra OTM	Mark 262	77 grain	2750	1293	NO
6.8SPC Barnes	TSX	85 grain	3074	1757	YES
AK 47	FMJ	123 grain	2300	1463	YES

Silver State Armory is rapidly growing as a trusted brand of ammunition products at Dealers and Law Enforcement agencies. Contact us today to add the full line of Silver State Armory ammunition products to your Dealership or LE Department.
